

QUANTROS®

ONC Certification Details

Quantros is committed and fully supportive of the enhanced marketplace transparency and visibility introduced in the 2015 Edition ONC Final rule. The following information is being provided to ensure that you can make informed decisions about the ability for the following certified product to meet your organization's needs.

This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

PRODUCT IDENTIFICATION

Developer Name: Quantros, Inc.
Date of Certification: 11/06/2017
Product Name: CareTracks
Product Version: 3.0
Certification #:
 15.04.04.2238.Care.03.00.1.171106

CERTIFIED CRITERION

- 170.315 (c)(2): Clinical Quality Measures - Import and Calculate
- 170.315 (c)(3): Clinical Quality Measures - Report
- 170.315 (d)(1): Authentication, Access Control, Authorization
- 170.315 (d)(2): Auditable Events and Tamper-Resistance
- 170.315 (d)(3): Audit Report(s)
- 170.315 (d)(5): Automatic Access Time-out
- 170.315 (g)(4): Quality Management System
- 170.315 (g)(5): Accessibility-Centered Design

Eligible Hospital Certified Electronic Clinical Quality Measures (eCQMs)

eCQM	CMS ID	Description	National Quality Strategy (NQS) Domain
AMI-8a	53	Primary PCI Received Within 90 Minutes of Hospital Arrival	Clinical Process/ Effectiveness
CAC-3	26	Home Management Plan of Care (HMPC) Document Given to Patient/Caregiver	Patient and Family Engagement
ED-1	55	Emergency Department Throughput – Median time from ED arrival to ED departure for admitted ED patients	Patient and Family Engagement
ED-2	111	Emergency Department Throughput – admitted patients – Admit decision time to ED departure time for admitted patients	Patient and Family Engagement
ED-3	32	Median time from ED arrival to ED departure for discharged ED patients.	Care Coordination
EHDI-1a	31	Hearing screening prior to hospital discharge	Clinical Process/ Effectiveness
PC-01	113	Elective Delivery Prior to 39 Completed Weeks Gestation	Clinical Process/ Effectiveness
PC-05	9	Exclusive Breast Milk Feeding	Clinical Process/ Effectiveness
STK-2	104	Ischemic Stroke – Discharged on anti-thrombotic therapy	Clinical Process/ Effectiveness
STK-3	71	Ischemic Stroke – Anticoagulation Therapy for Atrial Fibrillation/Flutter	Clinical Process/ Effectiveness
STK-5	72	Ischemic Stroke – Antithrombotic therapy by end of hospital day two	Clinical Process/ Effectiveness
STK-6	105	Ischemic Stroke – Discharged on Statin Medication	Clinical Process/Effectiveness
STK-8	107	Ischemic or hemorrhagic Stroke – Stroke education	Patient and Family Engagement
STK-10	102	Ischemic or hemorrhagic Stroke – Assessed for Rehabilitation	Care Coordination
VTE-1	108	Venous Thromboembolism - VTE prophylaxis	Patient Safety
VTE-2	190	Intensive Care Unit (ICU) VTE prophylaxis	Patient Safety

QUANTROS[®] ONC Certification Details

Included Services: The costs associated with a signed agreement would provide access to all certified capabilities including: 1) initial, standard data onboarding services 2) on-going data processing, 3) data feedback reporting, 4) submission services to entities specified in an agreement. Initial costs also cover updates/maintenance needed for Quantros to maintain certified capabilities which is required in order to provide ongoing submission services for specified entities and their associated programs (e.g. CMS-IPPS, MU, TJC Accreditation).

Additional Costs: Potential costs that could be incurred beyond the initial agreement include: 1) purchase/setup of an SFTP client for secure data transfer 2) a one-time, flat interface fee should an organization request non-standard onboarding services or 3) in the event re-submission of data is requested for one or more identified reporting agencies/programs beyond the initial, final submission that was accepted by the reporting organization/program. This certified product-version does not have any additional, associated costs (beyond the aforementioned) such as subscription fees, volume-associated processing fee, etc. that would be necessary in order to allow full access to all certified capabilities.

Limitations: Quantros implements and makes available only the most current, active version of eCQMs within our certified technology. An organization will be limited to receiving data services using the most current eCQM specifications (using the associated current version of code sets, Quality Data Model, algorithms, Implementation Guides, etc.), which affects all eCQM algorithm processing, feedback reports, output files, and submission services that Quantros provides via our certified technology. CMS & TJC require the use of the most current eCQM specifications for participation in their submission programs. They acknowledge and allow that the version of eCQMs used by the vendor may be more current than that which was available during the vendor's certification of capabilities.
